First-aid measures after inhalation

Remove person to fresh air and keep comfortable for breathing. If breathing is difficult, trained personnel should administer emergency oxygen if advised to do so by the POISON CENTER/doctor. Seek medical attention if you feel unwell.

First-aid measures after skin contact	Remove affected clothing and wash skin with water for > 15 minutes. If skin irritation or rash occurs seek medical attention. Wash contaminated clothing before re-use.
First-aid measures after eye contact	Immediately flush with water for > 15 minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists, seek medical attention. Avoid direct contact. Wear protective gloves if necessary.
First-aid measures after ingestion	If swallowed, rinse mouth thoroughly. Do not induce vomiting without advice from poison center. Get medical attention if you feel unwell.

#### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms/effects	Not expected to present a significant hazard under anticipated conditions of normal use.
Symptoms/effects after inhalation	May cause respiratory irritation
Symptoms/effects after skin contact	May cause skin irritation. Repeated exposure may cause dryness or cracking.
Symptoms/effects after eye contact	Direct contact with the eyes is likely to be irritating. Symptoms may include discomfort or pain, excess blinking, and tear production, with possible redness and swelling.
Symptoms/effects after ingestion	May cause gastrointestinal irritation

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treat according to symptoms (decontamination, vital functions), no known specific antidote. Treatment should be supportive and based on the judgement of the physician in response to the reaction of the patient.

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

Suitable extinguishing media	Small Fire - Dry powder. Carbon dioxide. Water spray. Alcohol-resistant foam Large Fire – Water spray, fog, or alcohol-resistant foam
------------------------------	--

#### 5.2 Special hazards arising from the substance or mixture

Products of combustion may produce, but are not limited to, oxides of carbon. Runoff may pollute waterways.

#### 5.3 Advice for firefighters

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Cool containers with flooding quantities of water until well after fire is out. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

#### Special Protective Actions

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Isolate hazard area and keep unauthorized personnel away. Stay uphill and/or upstream. Ventilate closed spaces before entering. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing. Avoid breathing vapor or mist. Avoid contact with skin, eye, or clothing.

## 6.2 Environmental precautions

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

## 6.3 Methods and material for containment and clean-up

Absorb Liquids in vermiculite, dry sand, earth, or similar inert material and deposit in sealed containers for disposal. Ventilate area after clean-up is complete. Dispose of materials or solid residues at an authorized site.
